

A scatter plot showing the relationship between Birth Rate (x-axis) and an unlabeled y-axis. The x-axis ranges from 0.005 to 0.010. The y-axis has four horizontal grid lines. Data points are colored circles in various colors (orange, cyan, brown, purple, red, green, blue, pink, grey, olive). The points are scattered across the plot, with a notable outlier at the bottom right near x=0.010.
